We produce our furniture in Germany and in the Ateliers of Gesas Brother Bjørn in Lithuania. We use massive oak from sustainable forests certified by the Forest Stewardship Council, FSC. Our ateliers are located in the forests where we harvest our wood. The design features the wood itself, giving birth to handcrafted and unique objects.

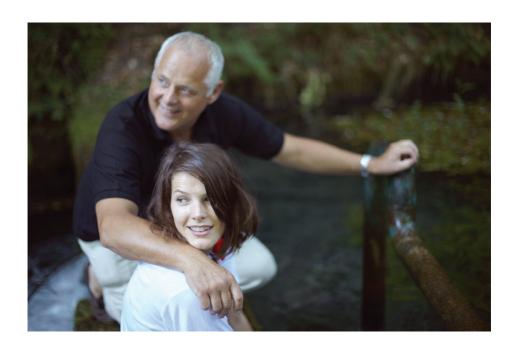

Homegrown Wood, Handmade Furniture, New Scandinavian Design ... this is what the Hansen Family is all about.

Handmade Furniture – Homegrown Wood – New Scandinavian Design. The Hansen Family is a label with a strong handcrafted character, founded by designer Gesa Hansen who grew up in a scandinavian family of carpenters, designers and architects. "Homegrown" in the business comes from the natural resources of oaks that we harvest in local forests, in this way allowing each piece to be handcrafted and unique. The first collection won two times the international Red Dot award and was nominated for the German Design Price 2011. Gesa has been nominated twice for the Elle Decoration Award and won the "Best Young Designer Price" of Architektur & Wohnen 2014.

The Family tree grows thanks to diverse collaborations such as: Kitsune, Surface to Air, Steven Harrington, Tivoli Audio ...
